

SPRINGKISS[®] Jr.

Mouthwash For Complete Oral Hygiene

Dr. John Lopes, President, Microcide, Inc., has a life long mission to replace toxic and polluting products with safe and effective ones.

Because of Dr. Lopes' prolonged training and research background in many disciplines of biomedical field and extensive work with NASA, Dr. Lopes has been able to prepare most effective and non-toxic personal care and health care products including sugar free mouth wash, most effective bacteria fighter for complete oral hygiene.

Dr. Lopes' patented mouthwash *SPRINGKISS[®] Jr.* for children helps prevent bad breath. Plaque build up and gingivitis with a cool and refreshing non-stinging formulation. Children and adults enjoy using *SPRINGKISS[®] Jr.* because of the bubblegum flavor and its great taste.

SPRINGKISS® jr.

Mouthwash for Children!

Prepared With All Food Grade Ingredients!
(Contains 99.9% Natural Ingredients)

Ingredients	Source of Food Grade Ingredients
Xylitol	Known to prevent dental caries. Xylitol naturally occurs as 5-carbon sugar alcohol in many fruits and vegetables. It is also natural sweetener.
Bubblegum Flavor	Natural fruit based flavor
Citric acid	Natural acid found in citrus fruits
Xanthan Gum	Natural polysaccharide
Sodium lauryl sulfate	Natural coconut fatty acid based emulsifying agent. Used in marshmallows, frozen eggs and fruits drinks
Benzoic acid	Benzoic acid is naturally found in strawberries, raspberries, cranberries, apples, prunes, apricots and plums. Exhibits antifungal properties.
Menthol	Natural mint oil from mint leaves
Sucralose	Non-calorie sweetener prepared from natural sugar.
Grape skin extract	Natural antioxidant. Prevents free radical formation. Reported as healing agent for inflammatory gum disease and having anticancer properties
Purified Water	Highly purified distilled or deionized natural water

**Kills a broad spectrum of oral microorganisms
That cause bad breath**

Microorganism	ATCC #	Gram positive/ Gram Negative	Aerobic/ Anaerobic	Morphology
